

# Online Learning Center

**Online learning courses** at the Center for Progressive Renewal are centered on interaction and idea exchange. Our courses connect you to training that is both practical and cutting edge. We have developed this learning environment with the aim of being **"the Place where Leaders go to learn"**. While every course includes opportunities for live inter-action, much of the work takes place on your schedule. You can do the coursework anytime day or night.

**Courses** are extended learning experiences stretching over 5 - 8 weeks offering in-depth exploration of a variety of church leadership topics.
